

INDUSTRIAL AND ENVIRONMENT TECHNOLOGY

TAP 50 R

Technical Data

| | | |
|--------------------------------|-------------------|------------|
| Min. and max. output* | m ³ /h | 5,0 - 50,0 |
| Max. design pressure | bar | 80 |
| Length | mm | 3600 |
| Width | mm | 1350 |
| Height | mm | 1110 |
| Weight approx. | kg | 2.700 |
| Diam. of material cylinder | mm | 300 |
| Diam. of differential cylinder | mm | 150 |
| Stroke length | mm | 500 |

* Max. output depending on consistency of material to be pumped.
